AIA

In September, the Arizona Interscholastic Association officially sanctioned a state tournament for robotics, joining 27 other AIA sports/activities that already compete for state titles. The interest for robotics and STEM initiatives is growing at Arizona high schools and the AIA is proud to provide an opportunity for these teams to compete in a fun and exciting atmosphere.

The first high school robotics season in Arizona will start during the spring season and teams will compete in regional events run by FIRST, a non-profit organization that organizes robotic events internationally. The top 30 teams from the regionals will then advance to the May 23 state tournament at the Prescott Valley Events Center.

There are currently 49 high schools that have robotics teams in Arizona. The AIA's goal is to double that number of teams by May 2016. If you are interested in supporting the AIA robotics program and state tournament as a corporate partner, please contact AIA Sports Properties at 602-385-3828 or facosta@aia365.com.

Game Summary

RECYCLE RUSHSM is a recycling-themed game played by two Alliances of three Robots each. Robots score points by stacking Totes on Scoring Platforms, capping those stacks with Recycling Containers, and properly disposing of pool noodles, representing Litter. In keeping with the recycling theme of the game, all game pieces used are reusable or recyclable by teams in their home locations or by *FIRST*[®] at the end of the season.

Each Alliance competes on their respective 26 ft. by 27 ft. side of the playing field. Each RECYCLE RUSHSM Match begins with a 15-second Autonomous Period in which Robots operate independently of their drivers. During this period, Robots attempt to earn points by moving themselves, their Yellow Totes, and their Recycling Containers into the area between the white scoring platforms, called the Auto Zone.

During the remaining two minutes and 15 seconds of the match, called the Teleop Period, Robots are controlled remotely by student drivers located behind the walls at the ends of the field. Teams on an Alliance work together to place as many Totes on their white Scoring Platforms as possible. Alliances earn additional points for Recycling Containers placed on the scored Totes, with containers at greater height earning more points.

Alliances also earn points for disposing of their Litter in their Landfill Zone near the center of the field, or placing Litter in or on scored Recycling Containers. Alliances that leave

Litter from the other Alliance unprocessed on their side of the field at the end of the match, not in scoring position, will add points to the score of the other Alliance.

Alliances have an opportunity to earn Coopertition[®] Points by coordinating with the other Alliance in the Match. Coopertition Points are awarded if, at some point in the Match, there are at least four Yellow Totes on the Step simultaneously. Coopertition Points are doubled if the Alliances arrange at least four of those Yellow Totes in a single stack on the Step.

To rank well during qualification matches, and advance through the playoff matches to the finals, teams will want to work to maximize their score for each match. Simply outscoring their opponents in a match does not guarantee an improved ranking. Information displayed to the audience after each match will show how the teams' performance affected their rank in the tournament.

Point values for the Teleop Period are in the table below.

Action	Value
Scored Gray TOTE	2 per TOTE
Scored RECYCLING CONTAINER	4 per LEVEL
LITTER Scored in/on RECYCLING CONTAINER	6 per RECYCLING CONTAINER
LITTER Scored in LANDFILL ZONE	1 per LITTER
UNPROCESSED LITTER Bonus	4 per LITTER
COOPERTITION SET	20 for each ALLIANCE
COOPERTITION STACK	40 for each ALLIANCE
